BLACK HISTORY MONTH

Madam C. J. Walker is known as "the first black woman millionaire in America" for her successful line of hair care products. In 1905 Walker, who had been losing her hair, sought a treatment for the condition. The method of beauty culture she developed revolutionized black hair care. The combination of scalp preparation, application of lotions, and use of iron combs became known as the "Walker system." She distinguished her products from the hair straighteners advocated by white cosmetic firms, arguing that her treatment was geared to the special health needs of blacks. She sold her homemade products directly to black women, using a personal approach that won her customers and eventually a fleet of loyal saleswomen.
